

# LICENSE PLATE RECOGNITION TRAINING CLASS

Learn about the diverse uses of License Plate Recognition (LPR) technology and how to utilize the tool in real world scenarios. Led by former law enforcement members, this course will demonstrate how to integrate a cloud based commercial LPR data platform into the existing traditional law enforcement deployment LPR model.

## LICENSE PLATE RECOGNITION TECHNOLOGY AND BEST PRACTICES

While you will learn about all currently available LPR systems, this course will mostly focus on the LPR database, Vigilant VehicleManager. You will see firsthand how using billions of plate detections can maximize investigative efforts in almost every facet of the job, including both areas of proactive field enforcement and investigations.

In this course, you will be working through real-world scenarios on the Vigilant VehicleManager database, utilizing analytical tools with step-by-step instruction. In addition, you will learn how to query fixed and mobile LPR Data to generate case-solving leads.

**At the conclusion of this class, each attendee will retain access to Vigilant VehicleManager with login credentials for 30 days.**

**JOIN US!** Click [here](#) to register.

Class is open to all law enforcement agencies.  
Attendees do not have to be a Motorola Solutions customer.

### DATE

This is a four part series webinar that will be taught in 2 hour blocks every Tuesday beginning February 14<sup>th</sup> through March 7<sup>th</sup>, 2023.

### TIME

Tuesdays from 10:00AM PST - 12:00PM PST

### COST

Free

### LOCATION

Online
