

# Southern California Crime and Intelligence Analysts' Association

## MONTHLY TRAINING MEETING

**DATE:** Thursday, March 9, 2023

**TIME:** 1000-1500 (5-hour class)

**LOCATION:** **IN-PERSON** Torrance PD: 3300 Civic Center Dr., Torrance

**TOPIC:** **SIMSI Presents** - Crime Prevention with Risk Terrain Modeling

**Speaker:** Dr. Joel Caplan

Risk Terrain Modeling (RTM) is risk assessment for places. It diagnoses crime patterns and identifies environmental conditions that contribute to crime problems. RTM drives decision-making and action for public safety. This interactive workshop is designed for everyone, without any previous experience or background in data analysis or crime prevention programming. We'll discuss how to use RTM for resource deployments, investigations, community engagement, and prevention. You will learn how RTM works, review case studies, and gain practical insights and tips to take home for implementation.

Dr. Joel Caplan works with cities and towns to prevent crime, improve community policing, and make data-informed decisions that enhance public safety. He specializes in GIS mapping and crime pattern analysis, and co-developed Risk Terrain Modeling (RTM). RTM is the underlying technology behind Simsi, a Rutgers University start-up company to which Joel is a co-founder.

\*\*\*

*Space is limited. Everything you need to participate will be provided. No prerequisites. Lunch will be provided. Certificate provided upon successful completion*

**COST:** **\$15 Fee for NON SCCIAA members**  
**Credit Card Payment accepted online**

Please RSVP at <https://www.scciaa.org/event-5118443>

Members: Use your Wild Apricot login information

Guests: Sign-up as a Guest
